FLORAL COLLECTION

The Floral tableware collection was launched in 2008 and consists of a variety of patterns designed to mix & match, and create a unique interplay through the applied artwork.
In 2017 a renewed Floral collection is introduced, combining the latest patterns and design developments of Pip Studio, but maintaining the original Floral tableware character.

The collection contains three colour groups: pink, khaki and blue, and because the 'new' collection items are an extension of the 'old' colour lines, they can be combined endlessly within the colour group and between the colour groups.

The studio is very proud to present the renewed Floral tableware, including kitchen and table linens, glassware and our brand new cutlery range containing forks, knives and spoons.

SPRING TO LIFE COLLECTION

Spring to Life tableware is a unique tea set.
The pattern is an interplay of sketched flowers and animals inspired by old botanical drawings. All products are finished with golden details. The collection is available in the colours blue, green, pink and off-white. The colour combinations of this collection are unique and go together beautifully.

The Spring to Life collection also includes kitchen- and table linens.

ROYAL COLLECTION

The Royal tableware collection was launched in 2014,
featuring unique shapes and delicate porcelain.
The pieces include elements from historic tableware
– vintage flowers, blue painted blossoms, branches and golden details –
that adorn the artwork in keeping with the shapes and use of the items.
Modern print techniques have been used to bring together
old and new in this collection.
After a visit to the Rijksmuseum in Amsterdam, the finishing touches
were put on the artwork and the result is abundantly clear: these are
new old classics! Royal tableware goes together beautifully
with Royal White tableware.

The Royal tableware collection also includes glassware.

ROYAL WHITE COLLECTION

The Royal White tableware collection is the response to a desire to create a more serene edition of Royal tableware. Made of the same delicate porcelain, the collection was launched in 2015 and its artwork consists exclusively of serene white porcelain with blue and golden floral scenes, alternating with golden graphic elements, all of which are also found in the Royal tableware collection.

Royal White tableware is therefore the perfect match for the original Royal tableware collection and also includes glassware.

GUIDELINES

• CARE & USE •

To enjoy your Pip Studio products till the end of times, we recommend the following Care & Use Guidelines:

GLASSWARE

- 100% food-safe;
- Not dishwasher-safe due to the golden decorations;
- Hand wash only in warm water;
- Do not rub design abrasively;
- No soaking in water;
- Don't use abrasive detergents.

TABLEWARE

- Material: A-Grade white porcelain;
- 100% food-safe;
- Not dishwasher- and microwave-safe due to the golden decorations;
- Always wash any new purchases before first use, in a mild solution of liquid detergent;
- Use liquid detergent;
- For tea/coffee stains, use a specialized stain remover;
- Use only a soft sponge - metal or abrasive scouring pads can scratch the surface or leave permanent marks;
- Plates can scratch one another, so do not put too many in a sink at one time;
- Don't use abrasive detergents.

CUTLERY

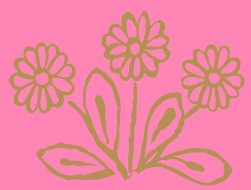

- The stainless steel part quality is 18/10, meaning it contains 18% chrome for durability and protection against corrosion, and 10% nickel for lustre and resistance to high temperatures. The knife blades contain 13% chrome and no nickel, ensuring a longer lasting, sharper edge;
- The porcelain part is A-Grade white porcelain;
- 100% dishwasher-safe, food-safe;
- Before the first use wash in lukewarm soapy water, rinse and dry thoroughly with a soft towel;
- Wash separately from silver and sterling silver plated cutlery - any contact while wet can result in a chemical reaction that can damage the silver;
- Always rinse your cutlery before placing it in the dishwasher; prolonged contact with certain consumables, e.g. salt, vinegar, eggs, tomato and certain acids, can cause pitting and staining;
- A higher chromium content gives stainless steel knife blades the necessary sharper edge: however, this also makes them more susceptible to corrosion. Please take extra care with these implements;
- Never leave stainless steel cutlery to soak or in damp conditions as this can cause staining which will require polishing to remove;
- To restore the cutlery's shine and to remove any staining use stainless steel polish and a soft dry cloth;
- Don't use abrasive detergents.

TABLE-, KITCHEN- & HOME TEXTILES

- Please follow the general cleaning and care instructions of the care label at each product.

All Pip Studio products are produced and tested according to the actual EU standards, rules and regulations.
